Subjects

Academic culture
  developing research to maintain, 178-181
  resources to maintain, 177-183
  structure and life of support system for, 181, 182
  teaching/learning climate, 182, 183
  values of academe, 177, 178
Acquired immunodeficiency syndrome (AIDS)
  critical theoretical analysis of society's view of, 283-292
  employees' rights in serving patients with, 335
  implications of legislation for nursing, 338, 339
  legislation on care for patients with, 335-337
  nature of nurses' attitudes on, 333-335
  nurses' common law obligation to serve, 335
  nurses' contractual obligations to serve, 335
  nurses' legal duty to serve, 333-340
  nurses' statutory obligations to serve, 335-337
  professional codes and standards, 337
  radical reflection analysis using example of, 283-292
  state licensing boards regulations on, 337, 338

Acute care
levels of expertise in care of addicted patients, 246-254
Addiction, alcohol/drug
advanced beginner level of care for, 248-250
competent level of care for, 250, 251
levels of clinical expertise in acute care setting, 246-254
novice level of care for, 247, 248
proficient and expert care for, 251, 252
Administration, nursing service
hospital cost containment and nursing, 4
management style and staff nurse job satisfaction, 119-125
see also Nurse executive(s)
Administration, school of nursing
new faculty doctoral preparation *v* expectations, 172-176
resources to maintain academic climate, 177-183
see also Administrator(s), school of nursing
transitions in deanship, 41-44
Administrator(s), school of nursing
life and career pathways of deans, 228-238
motivation and job satisfaction of deans, 33-40
role of first-line, 79-87
see also Dean(s)
Aging
ethical issues of equal access to health care and, 71
AIDS, *see* Acquired immunodeficiency syndrome
Alcohol abuse
consensus conference on nursing practices for, 184-187
levels of clinical expertise in acute care setting, 246-254
Alcohol, drug abuse, and mental health administration
consensus conference on alcohol/other drug abuse, 184-187
Alcoholism, *see* Alcohol abuse
Altruism
AACN essential value, 239
faculty perception/teaching of, 239-245
American Association of Colleges of Nursing (AACN)
study of faculty views of AACN essential values, 239-245
vote on practice/education collaboration, 148
American College Testing (ACT) scores
in Tinto's model of student attrition, 16-24
American Health Decisions
formation of, 272
goals of, 272
opportunities for nurses, 274-276
American Nurses' Association (ANA)
Minority Fellowship program fellows at Penn, 154, 159
policy on treating AIDS patients, 337
Anesthesia
dorsal penile nerve block for circumcision, 191, 194
pain management for circumcision, 190-195
Anthropologist(s), nurse
in program on culturally focused care/research, 300-309
Assessment, nursing
circumcision pain in neonates, 188-195
determining need for substitute decision maker, 328
emergency case of borderline personality disorder, 126-135
Associate degree in nursing
self-image of nurses with *v* BSN nurses, 211
Attorney(s), nurses
need for in US Human Genome Project, 332
Attrition, student
Tinto's model and, 16-24

Bachelor's degree program(s)
BSN program for LPNs, 6
faculty perceptions of AACN essential values, 239-245
see also Education, nursing *and* Faculty issues
Tinto's model and student attrition, 16-24
Bachelor of science in nursing (BSN)
program for LPNs to earn, 6
self-image of nurses with *v* AD/diploma nurses, 211
self-image of nurses with *v* MSN nurses, 211
Beth Israel Hospital
faculty practice at Center for Advancement of Nursing Practice, 310-318
model unit for nurse-physician collaboration, 351-363
Biologic sciences
interfacing nursing research and, 264
Biomedical research
addressing the funding crisis in, 7
options for funding crisis in, 75
Borderline personality disorder
emergency unit nursing case report of, 126-135
Bracketing
in radical reflection analysis of views on AIDS, 285

Cancer survivorship
clinical update on, 54-61
health care policy implications, 59, 60
implications for practice, 58, 59
long-term physiological effects of treatment, 55, 56
long-term psychosocial effects, 56-58
research implications, 59
response to clinical update on, 60, 61
Care plan(s), *see* Nursing care plan(s)
Care, nursing
developing faculty expertise in culturally focused, 300-309
during hospital admitting process, 270
emergency case of borderline personality disorder, 126-135
enhancement of in nurse/physician collaboration, 351-363
for addicted patients in acute care setting, 246-254
integration concept for evaluating outcomes of, 277-282
limitations of nursing care plans, 145
patients' right to assess quality of, 269
see also Caring, Health care, *and* Nursing care plan(s)
Career development
faculty practice as faculty development, 310-318

first-line academic administrators, 79-87
inventing ourselves forward, 1
life and career pathways of deans, 228-238
motivation and job satisfaction of deans, 33-40
peer review evaluations, 72
self-image of different levels of nurses, 208-212
Caregiver(s), family, *see* Family caregiver(s)
Caring
dark side of, 3
history of spirit of nursing, 149
justice, virtue and, 206
Center for Advancing Care in Serious Illness
climate for development of, 154, 155
cores of, 158, 159
evolution of, 152-159
goals of, 155
minority training at, 154
postdoctoral training at, 153, 154
predoctoral training at, 154
proposed research at, 156-158
research base for, 152, 153
Center of Nursing Excellence
for scholarly pursuit in clinical setting, 10-15
China, People's Republic of
health promotion as a cultural affair, 267
Circumcision
implications of neonate's perception of pain, 188-195
physician objections to anesthesia for, 194
Clinical nurse researcher(s)
components of doctoral curriculum for success as, 160-165
goals and strategies for, 13, 14
grantsmanship skills needed by, 163
personal attributes for success as, 164
research skills for, 161-163
scholarly pursuit in the clinical setting, 10-15
skills needed for dissemination of findings, 163, 164
Clinical practice
acute care of addicted patients, 246-254
choosing excellence with primary care, 5
collaboration among nurses, 331
culturally focused care, 300-309
dark side of caring, 3
human error in, 207
implications of cancer survivorship for, 54-61
limitations of nursing care plans, 145
management style and staff nurse job satisfaction, 119-125
meeting needs of family caregivers, 213-220
moral outrage in nurse/physician collaboration, 351-363
nurse-physician conflict, 329
nurses' legal duty to serve AIDS patients, 333-337
nurses' role in hospital admitting process, 270
peer review evaluations in, 72
role conflict and ambiguity in faculty in, 221-227
Clinical updates
cancer survivorship, 54-60
response, 60, 61
care of addicted patients in acute care setting, 246-253
response, 253, 54
circumcision pain in neonates, 188-193
response, 194, 195
emergency unit nursing report, 126-134
response, 134, 135
faculty practice as faculty development, 310-318
moral outrage in nurse/physician collaboration, 351-362
response, 362, 363
Cognitions
role of in passing NCLEX, 25-32
Collaboration, among nurses
collaborative approach to specialty care, 331
Collaboration, nurse/physician
Beth Israel Hospital model unit for, 351-363
blending moral perspectives, 359, 360
concept of, 352, 353
cornerstones of, 331
empowerment of nurses in, 356, 357
facilitating communication, 357, 358
generating new repertoire of care options, 355, 356
moral outrage and discourse in, 351-363
mutual trust and respect, 360, 361
new stages of moral development, 360
paradigm cases of moral dilemmas in, 353-359
reducing nurse/physician conflict, 329
synergy in, 359-361
uncovering previously unrecognized constraints, 358, 359
Collaboration, service, education
AACN vote to require member schools', 148
curriculum revolution and, 201
Commission on Graduates of Foreign Nursing Schools
employing foreign-educated nurses in the United States, 74
Community health nursing
community-based participation in health care policy, 271-276
content areas for master's degree programs in, 90
innovations in information technology for, 146
master's degree level educational needs, 88-98
meeting needs of family caregivers, 213-220
Community participation
in decisions on health care policy, 271-276
in Oregon Health Decisions, 271-276
Computer(s)
validation of nursing diagnoses using data base on, 293-299
Concept analysis
of integration for evaluating patient outcomes, 277-282
Connecting, social process of
in meeting needs of family caregivers, 213-220
Consensus conference(s)
on nursing skills for alcohol/other drug abuse, 184-187
paradoxical aspects of format, 184
Consultant(s), nurse
addiction nurse expert, 246-254
cultural sensitivity for foreign nurse researchers, 327

language problems in international consultation, 205
preparing for international consultation, 75, 150
Continuing education
faculty practice as, 313
Contract(s), patient-provider
emergency care of patient with behavioral disorder, 129-133
Conventions, nursing
observing conventioneers, 261, 262
Crime
dangers of for nurses, 69, 70
Critique
in radical reflection analysis of views on AIDS, 287, 288
Cultural focus
developing faculty expertise in care/research with, 300-309
Curriculum
AACN essential values in bachelor's degree, 239-245
clinicians' role in revolution of, 201
components of doctoral clinical nurse researcher, 160-165
limits of, 302
master's degree-level community health nursing programs, 88-98
nursing's liberal education theme from 1924-1939, 341-350

Data base(s)
Nursing Minimum Data Set, 293-299
validation of nursing diagnoses using, 293-299
Data sets
uses and abuses of large, 72
Dean(s)
life and career pathways of, 228-238
motivation and job satisfaction, 33-40
new faculty doctoral preparation *v* expectations, 172-176
recommendations for new, 43, 44
recommendations for departing, 42, 43
role of educational experiences in career path, 233, 234
role of occupational experiences in career path, 234
role of personal events in career path, 235
role of significant others in career path, 232, 233
transitions in deanship, 41-44
Decision maker(s)
functional assessment of need for substitue, 328
substitutes in health care treatment decisions, 268
Decision making
moral dilemmas in nurse/physician collaboration, 351-363
Department chairperson(s), *see* First-line administrator(s), academic
Diagnosis, nursing
alterations in fluid volume, 293-299
emergency case of borderline personality disorder, 126-135
validation of using computerized data base, 293-299
Dialectical imagination
in radical reflection analysis of views on AIDS, 288-290
Dignity, human
AACN essential value, 239
faculty perceptions/teaching of, 239-245
Diploma in nursing
self-image of nurses with *v* BSN nurses, 211
Discrimination
by health care workers against AIDS patients, 333-340
Doctoral degree program(s)
clinical nurse researcher curriculum components, 160-165
historical development of, 45-53
nurse scientist programs, 47, 48
preparation for faculty roles, 105-111
preparation *v* expectations in new faculty role, 172-176
student characteristics and diversity, 48-50
Drug abuse
consensus conferences on nursing care for, 184-187
levels of clinical expertise in acute care setting, 246-254
Drug(s)
nursing errors in administration of, 207

Economic issues
addressing funding crisis for biomedical research, 7
hospital cost containment and nursing, 4
regulation of temporary nursing services, 263
Education, nursing
AACN vote to require collaboration with practice, 148
bridging the gap between science and humanities, 141-143
calculating stakes of, 325
clinicians' role in curriculum revolution, 201
development of critical thinking from 1924-1939, 346-347
development of the individual from 1924-1939, 346
doctoral preparation for faculty roles, 105-111
faculty perceptions of AACN essential values, 239-245
for a broad general culture from 1924-1939, 345, 346
for citizenship from 1924-1939, 347-349
for strong science background from 1924-1939, 344, 345
freedom and responsibility, 8
historical development of doctoral programs, 45-53
hostility in, 265
implications of changes in technology, 144
interdisciplinary scholarly areas for nurses, 141-143
Learning Enhancement Assistance Program, 103, 104
limits of curriculum, 203
master's degree-level health nursing program needs, 88-98
NCLEX success and verbal skills program, 99-104
need for idealism in, 76
nonacademic variables' role in passing NCLEX, 25-32
nursing's liberal education theme from 1924-1939, 341-350
testing current validity and effects of approaches, 325
Tinto's model and student attrition, 16-24
Elderly patient(s)
moral dilemmas in collaborative care of, 351-363
research on incontinence in, 147

Emergency unit nursing
case report of patient with behavioral problems, 126-135
Empowerment
of nurses in nurse/physician collaboration, 356, 357
English language
fluency of in foreign countries, 205
Equality
AACN essential value, 239
faculty perceptions/teaching of, 239-245
Error(s), in practice
professional dilemma of, 207
Esthetics
AACN essential value, 239
faculty perceptions/teaching of, 239-245
Ethical issue
aging population and equal health care access, 71
chronic illness and equal health care access, 71
dark side of caring, 3
ethical responsibilities in nursing, 112-118
justice, caring, and virtue, 206
moral outrage in nurse/physician collaboration, 351-363
new "big ticket" technologies *v* alternatives, 71
patients' right to die, 151
professional codes/standards for treating AIDS, 337
public policy on equal access to health care, 71
responsible use of genetic information, 332
scientific fraud, 166-171
Ethicist(s), nurses
need for in Human Genome Project, 332
Executive(s), nurse, *see* Nurse executive(s)

Faculty issues
balance between teaching and research, 182, 183
Doctoral preparation for faculty roles, 105-111
doctoral preparation *v* expectations as faculty, 172-176
expertise in culturally focused care and research, 300-309
hostility in the classroom, 265
perceptions/teaching of AACN essential values, 239-245
resources to maintain academic climate, 177-183
role conflict and ambiguity in joint appointees, 221-227
Faculty practice
as faculty development, 310-318
clinical nurse evaluations of, 314
faculty evaluation of, 313, 314
program at Beth Israel's Center for Advancement of Nursing Practice, 310-318
role conflict and ambiguity in joint appointees, 221-227
Family caregiver(s)
needs of, 215
nursing involvement with, 219
theory development and research on needs of, 219
using connecting process to meet needs of, 213-220
Federal government, *see* Government, federal
Financial issues, *see* Economic issues
First-line administrator(s), academic
education and training, 80
responsibilities and career path of, 79-87
role-related competencies, 80, 81
Fluid volume
diagnosis of deficit due to active loss, 297, 298
diagnosis of deficit due to regulatory mechanism, 297
diagnosis of excess, 298
diagnosis of potential deficit, 298, 299
validation of nursing diagnoses of alterations in, 293-299
Foreign-educated nurse(s)
issues in employing in US health care system, 74
to solve US nursing shortage, 74
Fraud, scientific
definitions and reasons for, 167
implications for nursing research, 170, 171
major investigations of, 167, 168
policies for responding to, 169, 170
Freedom
AACN essential value, 239
and responsibility in nursing, 8
faculty perceptions/teaching of, 239-245
Future of nursing
testing current validity of educational approaches, 325

Genetics
implications of Human Genome Initiative for nurses, 332
Globalization
nursing partnerships and, 2
Government, federal
ethical issues in determining public policy, 71
legislation on treating AIDS patients, 335-337
outline of federal health components, 185
role in patients' rights-to-die decisions, 151
Government, state
grassroots movements in health care policy and, 271-276
laws on duty to serve AIDS patients, 337
Oregon Health Decisions effect on health policy in, 271-276
Graduate degree program(s)
effect on self-image and career development, 208-212
see also doctoral *and* Master's degree programs
Grantsmanship
in clinical nurse researcher doctoral curriculum, 163
Guardianship(s)
health treatment decisions for incapacitated adults, 268

Health care
accountability for quality improvement, 269
enhancement of in nurse/physician collaboration, 351-363
ethics and policy for equal access to, 71
functional assessment of decision-making capacity, 328
problems with health insurance, 330
substitute decision makers for incapacitated adults, 268
Health Care Financing Administration (HCFA)
problems with annual hospital mortality studies of, 72

Health care policy
American Health Decisions movement, 272
community-based participation in, 271-276
Oregon Health Decisions movement, 272-276
